- a high level of cost reductions of your productive systems
- a high level of SLA fulfillment
- a single point of contact (minimizing contact persons and of the processes)

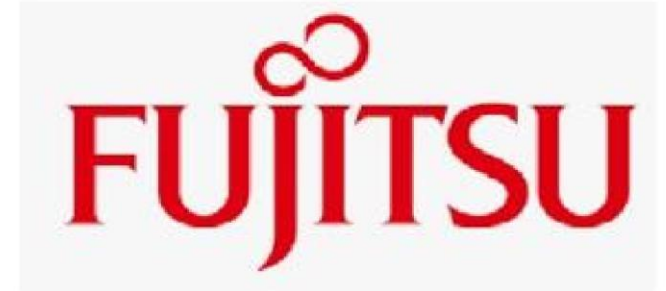

ECS Profile

- 1. Hardware Service provider “multi-vendor”
Maintenance of IT Equipment (servers,
Storage, ○2. Network, Printers and Thin client)
- 3. Data Center Relocation and Installation
- 4. Equipment Rental ○5. Our customer

1- Hardware Service provider “multi-vendor”

Our multi-vendor support services can help you not only cut costs and increase productivity across your IT organization, but also lessen the burden on resources already managing too many day-to-day administrative tasks.

2-Maintenance of IT Equipment (servers, Storage, Network, Printers and Thiclient)

ECS provides various server, storage, and networking solutions to its clients in order to help them optimize or increase their current capacity.

3-Data Center Relocation and Installation

ECS allow you to transfer your data and IT assets to a secure and reliable infrastructure, we will be able to provide an exceptional customer experience.

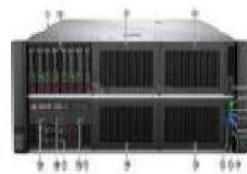

4-Equipment Rental

The rental of IT equipment allows businesses to focus on their core competencies, without worrying about the expenses associated with buying and maintaining the IT equipment. This helps businesses to save costs, stay competitive and focus on what they do best.
